Viva Engage

Current limits

- 100 tenants in MTO is supported

- Teams on the web, MS Teams Rooms (MTR), and VDI/AVD aren't supported

- Ability to grant or revoke permissions to receive notifications from other tenants and to switch between tenants isn't supported on mobile

- *People in your organization* links may not work for users from another tenant if their account had originally been a guest and they had previously accessed SharePoint resources

- It might take up to seven days for a user to appear in search once they've been synchronized -> Contact Microsoft support if not

- Support for a guest UserType of member in Power BI is currently in preview

Time slots to wait

- "It can take up to four hours for your tenant to be joined to the multitenant organization."

- "It might take up to seven days for a user to appear in search once they've been synchronized. Contact Microsoft support if users aren't searchable after seven days."

- "It might take up to 24 hours for synced users to be available in Microsoft 365 services such as Teams and SharePoint."
